

Trainingstool

The Buy Smart+ training tool provides detailed information on the following thematic topics:

- vehicles
- household appliances
- lighting
- office IT
- green electricity
- building and components

Subsequent to the training session, you can reexamine your knowledge with our test module.

After having completed the questionnaire, you immediately obtain your results.

Training Materials

Buy Smart+ promotes green procurement by providing free consultation for public authorities and private companies. Here you can find training materials for green procurement.
